

## *Passive-Aggressive Note #1: How to Maintain a Supply of Cold Beverages*

```
/*
  To use:
  var fridge = new Fridge();
  or
  var fridge = new Fridge(['coke', 'dr. pepper', 'grape soda', 'orange juice']);
  */
function Fridge(beverages) {
  this.beverages = beverages || [];
}
Fridge.prototype = {
  ...
  takeColdestBeverageCourteously: function(warmOne) {
    this.beverages.push(warmOne);
    return this.beverages.shift();
  },
  youKnowWhoYouAre: function() {
    return this.beverages.shift();
  }
}
```
